

ANAHEIM UNION HIGH SCHOOL DISTRICT

Questions and Answers to RFP # 2024-07
Addendum #1 for
DSA Inspector of Record (IOR), Geotechnical Soils Inspections, and
Material Testing Services
September 25, 2023

1. **Question:** On page 1 of the RFP, it is stated: District will accept individual or combined submittals from proposers for Inspection Services (IOR) and Geotechnical Inspection Services, Material Testing Services may not be combined with either Inspection Services (IOR) or Geotechnical Inspection Services.

The RFP is clear that Geotechnical Inspection Services cannot be combined with Material Testing proposals. However, are we allowed to participate in both categories (Geotechnical Inspection Services & Materials Testing Services) by submitting **two separate proposals** (one for Geotechnical Inspection Services & one for Materials Testing Services)?

Answer: A variation of this question was asked by several firms. Firms wishing to participate in Geotechnical Inspection Services & Material Inspection Services **must submit two separate proposals**. DSA Inspector of Record (IOR) cannot be hired from the same firm as the Lab of Record. We are seeking 3 different scopes of services under the same RFP.

2. **Question:** What is the duration of the contract? What is the maximum dollar amount of the contract? How many first will be selected per discipline?

Answer: The contract will be valid for up to 5 years. The initial contract will be for \$1 Million. The number of firms is anticipated to be 2-5 per selected discipline.
